Education

Bina Nusantara University 2024 - 2028
Bachelor of Computer Science *Focus: Software Engineering*

- GPA: 3.96 of 4.00 | Dean's List | S-Class

Projects

LinguaScreen | *Frontend Developer* 2025

Language-learning overlay that shows contextual translations and AI grammar explanations on-screen while reading.

- Semifinalist, elevAIte x Microsoft Hackathon Hub BINUS University 2025.
- Defined the core product vision with my team, designing an unobtrusive overlay that keeps readers immersed.
- Connected interface components and wired visual elements into the working demo.

Koinku | *Frontend Lead* 2025

Expense-tracking platform that automates transaction logging via receipt scanning, with interactive savings goals.

- Led a 3-person frontend sub-team, delegating tasks and reviewing work for visual and functional quality.
- Built views across the platform, standardizing a reusable React design system.
- Connected the UI to backend OCR endpoints so scanned receipts and savings progress update in real time.

Mealio | *Full-stack Developer* 2026

AI meal recommender that suggests meals based on mood, budget, and location.

- Built the Express backend with PostgreSQL, Prisma, and Docker from the ground up.
- Implemented the LLM pipeline parsing free-form mood, budget, and location input into structured recommendations.

Jalan Aman | *Mobile Developer* 2026

Road-hazard reporting app for crowdsourcing and monitoring real-time road disruptions.

- Owned end-to-end mobile development, from requirements to the cross-platform Flutter app.
- Built the real-time Flutter Map interface with custom hazard indicators and event expiration.

BeeTip | *Frontend Developer* 2026

Peer-to-peer errand platform where students request items and peers heading their way deliver them.

- Designed the full user flow: requests, peer pickups, delivery confirmations.
- Co-developed the React web interface for order placement and task matching.

Organization Experience

Staff and Division Treasurer 2025 - Present
Keluarga Mahasiswa Buddhis Dhammavaddhana

- Tracked and managed divisional expenses, ensuring accurate financial records and proper budget allocation across operational activities.
- Served as a Design and Documentation Committee Member for the **Kathina Event**, contributing to visual documentation and event support.
- Participated as a Fundraising Committee Member for **One Million Help**, a charity program focused on village outreach, socialization activities, and distribution of basic food supplies.
